

# DURING THE APPLE PICKING SEASON

**With COVID and the given situation, we have had to reinvent ourselves in order to ensure your safety.**

**What about apple picking?** Apple picking will take place this year, as usual. The premises will be completely revamped to respect safety measures. There will be a defined path to follow towards the orchards with only one way to go in and one way out. Detailed information will be given on-site. We prioritize payments by card, but cash is still accepted.

**And picnic areas?** We have decided not to put picnic tables in the orchards this year. However, you can always enjoy apple-picking season by bringing your picnic blanket, chairs, etc. We invite you to use the designated picnic areas in the orchards.

**Will we be able to use the sanitary block?** The sanitary bloc will be open, as usual, and will regularly be disinfected.

**Can we bring our pet in the orchards?** The rule does not change. Dogs or any other pet animal are prohibited from entering the orchards but are welcome on the premises.

**Can we purchase your products on-site?** Yes! We now have 2 boutiques to better serve you. Our boutiques are open 7 days a week. Wearing a face mask is mandatory for boutique customers, we follow recommended safety measures and even make our own sanitizer.

## **What about the facilities?**

- 1 - Playgrounds for children will be open in the orchards, equipped with disinfectant stations.
- 2 - Animals will be back in the little farm! To ensure safety measures, a sink will be put to your disposition to wash your hands with soap and water.
- 3 - Tractor rides: not for the moment. Because of social distancing, tractor rides will not be available. The situation can always change.
- 4 - Carts: cart rental will be available for \$3.50 (taxes included). They will be disinfected after each use.

**Our whole team is safely waiting for you to begin apple picking! The current situation is an exceptional one for us all, our goal remains the same: to offer you the best experience possible, despite changes made to ensure safety measures.**
